

## Peabody Families—

Below you will find detailed arrival and dismissal procedures, as well as visuals of the drop off locations (located on the back of this page). New this school year:

1. There won't be a cluster shuttle to transport students between Watkins and Peabody. Therefore, we will have 3 drop off location options to allow for a smooth flow of car traffic during drop off.
  2. Due to DCPS's COVID safety protocols, parents will not be allowed in the building for student drop off or pick up. Both drop off and pick up will take place at the door. Staff members will transition your child to their designated location.
  3. To ensure student safety on the playground and blacktop area, outside cars will not be allowed to enter the parking lot during arrival and dismissal.
